

The list of NPSs identified by the National Forensic Laboratory (NFL) and some of them verified by NMR at Faculty of Chemistry and Chemical Technology, University of Ljubljana - data have been included in the Slovenian EWS - Progress Report (January to December 2016) reported to EMCDDA

Chemical characterization data on listed substances (Analytical reports) are available in database here: http://www.policija.si/apps/nfl_response_web/seznam.php

Test purchases and a part of analyses have been produced with the financial support of the Prevention of and fight against crime Programme of the European Union (RESPONSE project: grant agreement number JUST/2013/ISEC/DRUGS/AG/6413). We kindly acknowledge this! Some samples were collected anonymously and screened by GC-MS (in the NFL) in the frame of the EU cofunded project I-SEE (grant agreement number JUST/2013/ISEC/DRUGS/AG/6426).
